## MEMBERS

Francisco A. Gutierrez

Francisco A. Gutierrez (47) is an artist and architect who came from Chile in 2004.

As an artist, Francisco likes to mix sketches with ink and watercolour to capture his preferred painting themes, such as the urban landscape and the architecture, especially the old and historic pubs. Currently he is working on a collection of watercolours of London pubs.

Also he likes to work developing some ideas of craft workshops using recycled materials to encourage the community to explore alternative ways to develop personal creativity and protect the environment.
